

Their Majesties Scholarships and RTG Fellowships Available for study at AIT

AIT - a unique regional and multicultural post-graduate institute

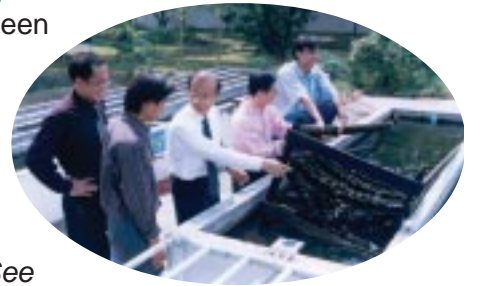

The Asian Institute of Technology and the Royal Thai Government are looking for scientists, engineers and professionals to join AIT's international team of students and faculty.

AIT offers education, research and training in engineering, technology, environment, management and societal development. Since 1959, AIT has graduated over 13,000 students who play leading roles in the sustainable development of the region.

Their Majesties' Scholarships

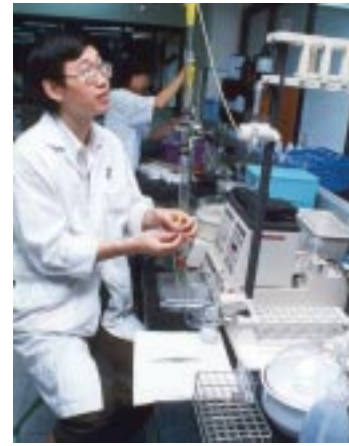

Their Majesties, the King and Queen of Thailand, graciously provide master's degree scholarships for study in various specializations at AIT. These scholarships cover the tuition and registration fees as well as a bursary for living expenses. All eligible Asian students may apply. (See *CGPA requirements for master's applicants below.*)

RTG Master's and Doctoral Fellowships

The Royal Thai Government provides these fellowships to qualified applicants from Thailand and Greater Mekong Subregion countries in the form of grants that cover tuition and registration fees for study at AIT in certain semesters; students will be responsible for the cost of accommodation and personal expenses.

RTG Fellowship Grants are offered for all fields of study at AIT. (See *CGPA requirements below.*)

❖ **RTG Master's Fellowships**
Based on 24 credits of graduate work.

❖ **Doctoral Degree Fellowships**
Based on 56 credits of doctoral work.

Who is Eligible to Apply?

Applicants must meet the following minimal CGPA requirements:

For the master's scholarships and fellowships, the undergraduate CGPA must be 2.75 or above.

For the doctoral fellowship grants, applicants should have undergraduate CGPA of 3.00 or above and graduate CGPA of 3.50 or above.

MAJOR AREAS OF EXPERTISE

- Construction Engineering and Infrastructure Management
- Geotechnical and Geoenvironmental Engineering
- Structural Engineering
- Transportation Engineering
- Water Engineering and Management
- Computer Science
- Information Management
- Industrial Engineering and Management
- Design and Manufacturing Engineering
- Mechatronics
- Microelectronics
- Telecommunications
- Remote Sensing and Geographic Information Systems
- Information and Communications Technologies
- Agricultural Systems and Engineering
- Aquaculture and Aquatic Resources Management
- Energy Technology, Economics and Power Systems
- Food Engineering and Bioprocess Technology
- Gender and Development Studies
- Natural Resources Management
- Pulp and Paper Technology
- Regional and Rural Development Planning
- Urban Environmental Management
- Environmental Engineering and Management
- Environmental Toxicology, Technology and Management
- Cleaner Production
- Integrated Tropical Coastal Zone Management
- Integrated Watershed Development and Management
- Modeling Tools in Environmental and Resources Management
- Geosystem Exploration and Petroleum Engineering
- Environmental Technology and Management
- Management of Technology
- International Business
- Service Marketing and Technology
- International Public Management

Come and join AIT's international team
